# Altzella Monastery Park

## Life Behind Monastery Walls

### BRIEF DESCRIPTION

The ruins and buildings of what once used to be one of the richest and most powerful Cistercian monasteries lie embedded in a romantic landscape park. Since the time of Reformation, its monks have long disappeared but buildings, such as the Converses' House with the Refectory and Library Hall or the Mausoleum of the Wettins, are a testimony of long bygone times. Where had the monks once come from, which rules did they follow and what was their everyday life like? These are some of the questions that will be answered during an adventurous tour with a special highlight: While tasting a goblet of wine in the Refectory you are given insight into the strict rules of the Cistercian Order at those times and will learn something about the measure of the drink. The tour will end at a coffee table where typical Saxon pastry is served.

### SERVICE

- 👉 Welcome & guided tour of the monastery and the monastery park
- 👉 Experience »Bread, Salt and Wine« in the Refectory
- 👉 a pot of coffee and a piece of »Eierschecke«, a typical Saxon pastry

# Dresden Fortress

## Touring the Fortress with Lady Russwurm

### BRIEF DESCRIPTION

Those taking a look from world-famous Bruehl's Terrace over the Elbe River valley are rarely aware of them standing on an old fortification wall with some of Dresden's oldest vaults underneath their feet. The fortified walls hide an extensive maze that is too easily overlooked for all the Baroque splendor of the city. The seemingly subterranean fortress is an attraction for all those who want to explore Dresden from a different perspective. The stone artifacts in the preserved parts of the fortress may whisk you away to a largely unknown part of the town's history: the Renaissance. During the guided tour, Lady Russwurm, dressed up as the town major, will chat about everyday life at the fortress and entertain visitors with hilarious stories from bygone times. Thus, she will carry you away to an unexpected and mysterious world of its own, including Dresden's last preserved town gate and oldest preserved stone bridge, guard houses and cannon yards, battlements and casemates, but also a historical restroom and a very peculiar telephone system dating back to the 16th century.

### SERVICE

- Welcome at Dresden's oldest preserved town gate
- Costumed guided tour of Dresden Fortress

### RATES/SERVICE

OFFER can be booked all year round, guided tour EUR 7.00 p.p. (during opening hours: April - October 10:00 am - 18:00 pm, November - March 10:00 am - 17:00 pm) or EUR 12.00 (outside opening hours), plus guided tour rate of EUR 30.00. Duration: approx. 1 hr. You can comfortably discover the garden grounds, the early Baroque Palace and the Park Railway on the themed guided tour »By Rail and on Foot«. Before embarking on the train, you will learn more about the miniature railway and later on you will be given interesting details of the Palace and the centuries-old art of gardening.

It's only seldom that the countess receives guests in order to relate her view of things, nowadays. Why are both her steep rise and her equally steep fall so close to one another? What was she driven by? Which circumstances led to her lifelong banishment to Stolpen Castle. How did her temper influence the course of events?

Abandoned and expelled out of society, the former Imperial Countess Cosel willingly gives you information about her adventurous and fateful life at the original place of her incarceration.
